PROJECTS

Weather Forecast Web Application(HTML, CSS, JavaScript)

Developed a responsive web application using HTML, CSS, and JavaScript to fetch and display real-time weather data using the OpenWeather API. Implemented a user-friendly interface with city-based search functionality to retrieve temperature, weather conditions, and other relevant details. Emphasized clean UI design and seamless API integration for an intuitive user experience.

BMI Calculator Web App(HTML, CSS, JavaScript)

Built a responsive BMI Calculator using HTML, CSS, and JavaScript. Integrated dynamic BMI computation with real-time form validation and conditionally styled BMI output based on health category. Ensured mobile responsiveness with adaptive layouts using media queries. Emphasized clean UI/UX and reset functionality for enhanced user interaction.
